## Bandits Torture, Rob, Aged Woman

TIE, BEAT, CHOKE  
VICTIM, STEAL  
LIFE SAVINGS;  
ASK MORE;  
FOILED

LOS ANGELES, June 25.—Tied, beaten to unconsciousness, choked, tortured and robbed of her meagre lifetime savings by seven masked bandits. This is the story told this morning to the police by Mrs. Louisa Martinez, sixty years of age. The woman awoke shortly after midnight this morning and found her bed surrounded by bandits. The men brutally spreadlegged her on the bed, tying her down with ropes. Then they beat and choked her. Twisting her arms, they demanded her money, but the torture had been too great, and the woman fainted. The thugs resuscitated her and resumed the torture. Mrs. Martinez managed to whisper "Money in trunk." The bandits smashed the trunk open and took what cash they found. Three then returned and resumed their torture of the old woman, demanding more money. Under their vicious attacks the woman fainted a second time. When she recovered the bandits were gone. She managed to slip her bonds and at once notified the police. Five men were found hiding in a house nearby and taken into custody as suspects. They are charged with robbery and statutory assault. Mrs. Martinez is in a serious condition from snuck, but there is hope she will live. The amount of money secured by the bandits was \$120, all the money the woman had in the world.

### DAN CUPID KNOWS NO WAR GAME RULE; LOVE ONLY WEAPON

SAN FRANCISCO, June 25.—Dan Cupid is a neutral. Despite the fact that their respective countries are engaged in bitter war, Miss Hope Hunter, daughter of a wealthy Australian cattleman, is en route to New York today to wed Frank F. Wood, a German army officer. Miss Hunter arrived here on the steamer Ventura. She and Wood, then a first officer on the liner, were engaged when the war broke out, and Wood returned to fight for the fatherland. They arranged by cable for the wedding and Miss Hunter came here over the objection of her parents. After the wedding they will go to Germany.

### ONTARIO KIDS WIN FIRECRACKER FIGHT; WILL BE NOISY KIDS

ONTARIO, Cal., June 25.—Ontario kids are glad today. Their gladness is the result of a victory after a long fight with their parents and the city marshal concerning firecrackers on July 4th. The kids promised to observe a particular set of rules in their fiery demonstration of Independence Day, and everybody will play the part of volunteer fire ranger during the day.

### BOY STRUCK BY AUTO, DRAGGED AND LEG IS BROKEN

Walking from the sidewalk into the street, Leo Raster, aged 10, was struck by an automobile driven by D. Erramuspe of Irvine. The boy was dragged fifty feet. He fell to the pavement, and the automobile passed over him. The boy's right leg was shattered below the knee.

The injured boy is the son of Mr. and Mrs. Leo N. Raster of 607 Bush street. The father is an employee of Vandermast & Son. The accident occurred about 6:45 o'clock last evening at the southwest corner of Sixth and Main streets, as D. Erramuspe, a bean grower on the San Joaquin ranch, and members of his family were coming north on Main street in an automobile, on the right side of the street.

Misjudged Position The boy turned off the sidewalk in front of the Ford garage to cross the street. So far as could be learned from witnesses today the lad did not see the automobile coming, else misjudged his position. By some it was stated that he stepped in front of the machine.

In an endeavor to save himself, the boy attempted to cling to the automobile. It was fifty feet from the point where he fell to the pavement and where the automobile passed over him. It was about 100 feet from the place where the boy fell to the place where the automobile came to a stop. The boy's cap was found on the running board of Erramuspe's automobile.

Rushed to Hospital An automobile came out from the Cadillac garage and quickly the injured boy was placed in it by Erramuspe, who went with him to the Santa Ana hospital. Erramuspe then went for a doctor, and returned to the hospital. Drs. Clark and Murphy found the boy's leg badly injured. There was a compound fracture below the right knee. Several small bits of shattered bone had to be removed.

WOULD YOU ELOPE with the original of this photograph? Thomas C. O'Sullivan would—and did. Mr. Sullivan is assistant to President Wilson's private secretary Joseph Tumulty. The elopement has caused a sensation in Washington society. The bride's mother, who is shown below, says she will never forgive the couple.

### 'FREE SUGAR TO CLOSE SUGAR FACILITIES,' SAYS CASE

"If sugar goes on the free list next May, sugar factories all over the country will close," said Gen. F. H. Case, manager of the Southern California Sugar Company of Santa Ana, today, on returning from Denver, Colo., where he attended the convention of the Sugar Manufacturers' Association. "That is the consensus of opinion expressed at the meeting of sugar factory men. That was the report brought from every section of the country. There is no question about it. Free sugar will put the industry out of business."

At the Denver convention the tariff question was the chief topic of conversation and discussion. Since the tariff means the very life of the sugar industry, it was natural that it should be the chief topic before the gathering of the association. The war has had a big effect on sugar prices. Reports from all over the country show that this year there is going to be no scarcity of sugar. Crops are good and factories will turn out a big output.

From Washington comes news that in official circles it is believed that the next congress will put a tariff on sugar. It is believed in Washington that this will be found necessary as a revenue producing measure.

A. J. Crookshank of the Santa Ana Co-Operative Sugar Company of Santa Ana and General Case were the only Orange county sugar men who live in the county who were present. J. Ross Clark of the Los Alamitos Sugar Company, and the president of the Holly Sugar Company, Mr. Kelly, a New York man, were present. Crookshank has not yet returned home.

DERNBURG SAFE BERGEN, Norway, June 25.—Dr. Bernhard DERNBURG arrived safely today on the steamer Bergensfjord. From here he goes direct to Germany.

## GERMANY SEEMS DISPOSED TO MAKE GREAT CONCESSION TO U. S.

BERLIN, June 25.—The preliminary draft of Germany's reply to the second American note contains the following representations, it is today learned on reliable authority:

First—Germany is fighting for the freedom of the seas. She does not desire to jeopardize neutral interests.

Second—An expression of appreciation of American friendship.

Third—Acceptance of President Wilson's suggested mediation between Germany and Britain to obtain a modification of the British blockading and German submarine.

Fourth—Admission that Germany was probably misinformed regarding the Lusitania being armed.

Fifth—An indication that Germany is willing to negotiate along the lines of President Wilson's "humanity plea," without abandoning her attacks on enemy merchantmen.

Sixth—An indication that if Germany agrees to cease attacking without warning merchantmen must stop attempting to ram and sink her submarines.

Giuseppe Garibaldi was interviewed today and said: "Germany is Italy's real enemy. If Germany wins this war, her next move will be to attempt to conquer America and rule the world."

### MORE CHARGES MADE OF GERMAN GAS BOMBS

PARIS, June 25.—A war office statement today says the Germans have temporarily occupied the French trenches on the Meuse heights near Catone.

The Teutons, it is said, attacked under cover of dense clouds of poison gas and showers of liquid fire. Unable to breathe the French retreated, many being burned.

As the gas clouds disappeared the French searchlights exposed the Germans and a terrific machine gun fire swept the captured trenches.

The Germans, their supply of liquid fire exhausted, withdrew.

French illumination bombs flooded

## SOLON'S FIST AND SOLON'S NOSE IN COLLISION AS ARIZONANS WRANGLE

PHOENIX, June 25.—It was an exciting morning in the House of Representatives of the Arizona Legislature today.

A solon's nose stopped a solon's fist. The nose got decidedly the worst of the encounter.

There was the "makins" of a free-for-all fight right there, and one did start. But other members intervened and an armed truce is the result.

Representative Goodwin was speaking. Suddenly he made the charge that the girl stenographer was not recording his remarks.

Representative Mahoney yelled: "Don't insult this girl."

Goodwin rushed toward Mahoney's desk with fists clenched.

Mahoney's fist, also clenched, met the Goodwin nose, and Goodwin measured his length on the floor.

He got up as quickly as he went down and cleared decks for action.

Here other members intervened.

The Davis boy's body was found after the town and surrounding country had been searched for him and after the reservoir had been drained.

The boys said they were hunting for their cows and stopped to play at the reservoir. Tommy leaped over to look into the water and fell in.

## REBUILD BIGGER AND BETTER THAN EVER, SLOGAN OF EL CENTRO AS ARMY OF MEN START CLEAN-UP

EL CENTRO, June 25.—"Rebuild bigger and better than ever." This is the slogan of El Centro today as an army of men began clearing away the debris of Tuesday night's great earthquake. Cracked walls are being dynamited and torn down. Carloads of material are arriving by every train. It is now estimated that \$200,000 will cover the total damage done in Imperial valley. ## MOTHERHOOD TO BE HONORED AT EXPOSITION

SAN FRANCISCO, June 25.—It is proposed to place in the department of sculpture of the Panama-Pacific International Exposition, where it has been promised the central position of honor, a beautiful bronze monument of Motherhood in honor of the pioneer mothers of the West—those self-sacrificing women, with their little ones at their side, who braved the dangers and underwent the hardships and privations incident to pioneer life. So far as we have knowledge, this will be the first Motherhood monument of the world, and it will be reared as an expression of the love and gratitude of California's sons and daughters to the Pioneer Mothers.

It consists of a group of three figures—the mother, and two little children, in bronze, symbolizing the future and hope of the nation, mounted on a beautiful bronze plinth, the panels and decorations of which illustrate the life of the West.

A great bronze panel on the front of the base contains the following inscription, composed by Benjamin Ide Wheeler, president of the University of California: "Over rude paths, beset with hunger and risk, she pressed on toward the vision of a better country. To an assemblage of men, amidst the perils of the wilderness, she brought the threefold heaven of enduring society—Faith, Faith, Gentleness, Home, with the nurture of children."

Below the inscription is a relief map of the old Oregon and California trails to the West.

Another great bronze panel, with prairie schooner and western group, occupies the rear of the base.

At the close of the exposition this monument will be placed in the Civic Center of San Francisco, constituting a permanent contribution to the art treasures of the state.

The cost of the monument, including marble base is \$25,000, of which more than half has been paid or guaranteed. Contributions should be addressed to Miss Caroline A. Snook, treasurer Pioneer Mother Monument Association, office Woman's Board, Panama-Pacific International Exposition, San Francisco.

All checks should be made payable to the Pioneer Mother Monument Association.

Georgiana Stoney is secretary; Mrs. Phoebe A. Hearst, honorary chairman, and Mrs. Frederick G. Sanborn, chairman.

## RETIRED

He used to be a business man,  
And had a whopping trade;  
From dawn to dark he used to plan,  
And quite a wad he made.  
But now he lives a life of ease,  
By no ambition fired;  
And in the business circles he's  
Declared to have "Retired."

It seems depression came; the skies  
Of business all were dull,  
He thought that he'd economize  
Because there was a lull,  
He stopped his advertising—so  
In memory he grew dim.  
He didn't retire from business—no,  
The business retired from him.  
—Douglas Malloch in American Lumberman.

## PERTAINING TO THE WAR

An action brought in the courts in Milwaukee by General Samuel Patton in which he sought to restrain the Allis Chalmers Company, Otto H. Fulk and others from manufacturing shrapnel shells, which it was alleged, were being supplied to the allied army, has been dismissed. The court concludes that in view of the well-settled principles of international law it must be apparent that the relief sought by the plaintiff is political rather than legal.

Italy has placed an embargo against the exportation of olive oil but shipments will be allowed to the United States upon application for permission to the Italian government.

## ARE TO CONCENTRATE IN WATERSHEDS PROTECTION

The Cleveland National Forest supervisor, S. W. Wynne of Escondido, has issued the following notice:

That the Forest Service is giving up its stations at Dulzura, Ramona, Lakeside and Bear Valley in San Diego county, is now an established fact. Protection will be withdrawn from about one-half the present area in the county. Some of the men will be moved back so as to concentrate on the important watersheds, and funds and men not required on the reduced area will be transferred to the northern forests. Auto trucks and teams are now busily engaged in removing government fire tools and tool boxes, equipment of various sorts and personal effects of the rangers, boundary posts, telephone lines and lookouts are being taken down and either moved back or shipped north.

July first will see this work completed and the force re-aligned, ready for what will no doubt be a serious fire season, owing to the unusually heavy grass caused by two years of excellent rainfall.

The city of San Diego watersheds tributary to Barrett and Morena dams will be retained under the service so as to protect the water supply. Also the Sweetwater and San Diego river systems will continue to be held, as well as areas affected by the Vulcan Company projects.

Reasons for this retention lie largely in a desire to help San Diego by holding areas for rights of way for conduits and storage reservoirs and taking precautions for proper sanitation on municipal watersheds.

None of the land from which protection is now withdrawn will be restored to entry until opened by presidential proclamation, which will be some time next fall.

## QUAKES THREW WATER OUT OF BIG CANAL NEAR HEBER

### Rancher Writing to County Auditor Tells of Experi- ences In Shakes

County Auditor Jerome today received a letter written yesterday morning by Bert Holt, formerly of Los Alamitos, who is in charge of the ranch five miles from Heber, Imperial county, that is owned by William and Ben Jerome. This letter tells of the earthquake as follows:

"Well, everything on the ranch it still on its foundation, but it looked as if it was going down at one time. The last hard shake threw water out of the main canal into the road. In places the canal caved in and at places for fifty yards along the canal there are cracks you could put your whole arm in."

"Yesterday evening we went to Calexico. Everything was closed up that hadn't been shaken down. Mexicali suffered worse than Calexico. The towns looked as if the Germans had been bombarding them."

"Our house looked as if there had been a free-for-all rough house in it—chairs turned over, broken dishes all over the floor, lamps and almost everything that could be, turned over."

"It has been shaking o. and on ever since it started, day before yesterday evening at about 8 o'clock. I haven't been up to Heber, but they tell me every building up there is wrecked, especially Varney's."

"The people from the Riverside ranch came down here on the run, the woman in her night dress, with a blanket wrapped around her. They stayed all night. One of our neighbors had ten call on him and all hands slept on the hay stack."

"During those two hard shakes you could just feel the hair raise on your head. I tell you it was fierce. The horses just tore around the corrals. I would venture to say Fuller's cattle tramped out more feed in the half-hour they were running than they will eat in three days. I went up to look how our horses were doing and found them all right. I looked them all over yesterday and found all there and no cuts."

"There is a rumbling noise and then the shake. We have had three pretty hard shakes since 6 o'clock this morning. Some of the people, especially the women folks, are frightened half to death. There was four men here camped, leveling the ditch banks, and three drew their time and left yesterday. Several farm houses burned."

## PAVING EL TORO ROAD NOT GOING TO BE INTERRUPTED

### By-pass to Be Used Between Railroad and State High- way Is Secured

The paving of the county road between the El Toro depot and the state highway at the Moulton ranch is not to be interrupted. Yesterday County Highway Engineer Finley made arrangements for a by-pass through the hay fields along the northwest side of the road between El Toro and the Moulton ranch, and this by-pass will be used by those going to San Diego via El Toro from now on.

While construction work has been going on in the vicinity of El Toro a by-pass has been provided south from El Toro to Galivan. That by-pass is to be discontinued, probably right away, at least between El Toro and the Hemingway lease. The concrete road is now open from the El Toro road-state highway corner to Hemingway's and travel can go from El Toro to the state highway near the Moulton ranchhouse, and then along the paved road to Hemingway's, where for the present a by-pass will be used to Galivan. The last of the concrete between the Aliso creek and Galivan is being laid today, and the section will be opened to Galivan from the El Toro road corner in time for the Fourth of July travel. In fact, it will be open for a distance of about three miles south of Galivan, that section being upon the contract of the firm that is to build from Galivan to San Juan creek.

When Highway Engineer Finley went to El Toro yesterday with Assistant Division Engineer Cortelyou of the state commission it was with the idea that possibly the paving of the El Toro road could be put off, and that road used instead of a by-pass. However, it was found that a good by-pass could be provided along the northwest side of the road, and arrangements were made with property owners for it. M. L. Huberman, who has the contract for paving the road between El Toro and the state highway, commenced tearing it up today.

### YAQUI INDIANS ARE FRIENDS OF THE U. S.

SEATTLE, June 25.—Dr. J. R. Thompson, a Yaqui Indian student, arrived today from Sonora, Mexico, the scene of the present Indian uprising. He declares false the reports that the Yaquis have declared war against America. He asserts the rumors are "maudlin Mexican talk."

He says the Yaquis are firm friends of America and have often offered armed escorts to convey Americans through the Mexican lines.

The Mexican government has persecuted the Yaquis for twenty years, grabbed their lands and forced the Indians to enter the army and fight their friends.

Hence the present uprisings, he says.

With Corporation Commissioner  
(From L. A. Financial News.)

A permit for the sale of stock to the Deep Sea Exploration Company of Los Angeles, organized for the purpose of having a diving bell with which to recover supposed treasures has been refused by State Corporation Commissioner Carnahan on the ground of charges of attempted bribery. In the decision it is stated by the commissioner that a Los Angeles broker named Trouville accepted \$500 in money and promises of \$500 more from W. D. Sisson, formerly of Portland, but now at Los Angeles, and others of the company, in return for which it was alleged Trouville was to secure a permit for the company. The decision states that the district attorney at Los Angeles presented the case to the grand jury there, which uncovered the facts related. Commissioner Carnahan required the Deep Sea Exploration Company to return payments to investors who purchased stock while the company was without a permit.

Attorney-General U. S. Webb of California, in an opinion handed down this week, held that the act prohibiting corporations from incurring indebtedness in excess of their capital stock limited the amount to the par value of stock issued; also that a previous decision of the California supreme court to the contrary was revised by numerous subsequent decisions. Commissioner Carnahan, who requested the opinion, said lawyers generally had advised their clients to rely on the supreme court decision of 1892, which held that excess indebtedness, although imprudent and sometimes fraudulent, was within the powers of a corporation's directors. He said many corporations incurred excess liability, particularly construction. The attorney-general's opinion probably would hasten a test case, he said, to determine the matter. If the opinion were sustained it would invalidate excess liabilities if corporations chose to repudiate them.

## Today's Feature Story

[By a United Press Staff Correspondent]

WASHINGTON—It seems that when General Miles occupied Porto Rico in 1898 and the U. S. military bands marched here and there playing "A Hot Time in the Old Town Tonight," it was sweet music to the Porto Ricans. But it seems further that the same music would not be so sweet today.

"It was like a hymn of redemption," said Prudencia Rivera Martinez, testifying before the Industrial Commission in Washington recently.

Martinez is president of the Cigar-makers Union of Porto Rico and of handsome, correctly dressed young man, infinitely carefully and correctly dressed, much more so, in fact, than John D. Rockefeller, junior, who preceded him before the commission. So handsome a youth and so correct of attire one scarcely would expect to find coming this far to fight for the barefoot laborers of his own land. But neither of those qualities seemed to weigh heavily on Martinez' mind, while the troubles of his people did. He made a distinct impression on the members of the commission.

And then talking about it afterward, he relieved his mind further, first having laid the groundwork of his discontent in the recital of the slavery under which Porto Rican laborers had suffered through centuries of Spanish suppression. It is to this same Spanish heritage that defenders of conditions as they are on the island point. "We cannot be expected to have removed entirely in 16 years the work of several hundred years," they say.

But Martinez and his fellows want matters corrected in the light of present civilization. It is not the customs of old that are to blame, they say, but "an anti-American reaction."

"The island of Porto Rico never confronted a situation similar to that of our people," he said. "Certain combined rich corporations and certain officials are responsible for the most iniquitous tyranny over the poor peasants. During the last agricultural laborers' strike six workmen were killed by the police, 100 wounded and 300 jailed. Several meetings were disbanded by the police and clubbing following criticisms of the government official and the sugar corporations' overseers and agents. Constitutional rights of the laborer have been denied time and again."

"The working people have been deliberately terrorized, we believe to make them think it is a crime to go on strike."

"On the one hand the school budget has been cut down \$700,000, while on the other \$80,000 has been voted to aid the sugar planters. More than 250,000 children are deprived of an education, but the business interests are protected."

## JOHN McFADDEN

Again the Register is called upon to express the deep sense of loss and bereavement the community feels in the death of one of its pioneer and leading citizens—John McFadden.

Mr. McFadden was one of those men whose gentleness and modesty obscured to some extent to the casual observer his great worth as a citizen, his sterling qualities as a man. But to those who look beneath the surface, and to those who were fortunate enough to know him well, Mr. McFadden was recognized, if not loudly acclaimed, one of our first citizens, one of our finest men.

He was a loyal and loving friend, husband, father—gentle and generous in all the relations of life.

In public affairs he was not an aggressive man, but he was firm as a rock in his convictions and principles; and no worthy public enterprise or community movement ever lacked his support, his wise counsel, his efficient service.

In his death the community sustains a distinct loss; its sympathy goes out to his bereaved family; it will cherish his memory.

## THE USE OF STREETS

The City Trustees made a good start in the right direction the other day, when they took action to prevent the further blocking of North Main street by the Pacific Electric Railway's express car, and by public service automobiles.

Why should the P. E. be permitted to use the streets as a freight depot? Or the auto men to monopolize them for private gain?

The streets belong to the people and they need them in their business. Why should anybody, big or little, be permitted to use the streets of the city for private business purposes?

Why should one business man be given a preference over another or many others?

Merchants have large investments in stocks, pay big rents, heavy taxes, business licenses, contribute liberally to public enterprises.

But are they permitted to use the streets and sidewalks for private benefit?

Not on your life! Let a merchant leave a packing case on the sidewalk longer than is necessary for packing or unpacking, and the marshal or somebody else is after him with a sharp stick.

But you, his customer, try to drive up to the curb in front of his store, and see how many obstacles and difficulties you will encounter on account of the use of the streets for private business purposes.

The Register has no desire to be unkindly specific; and it recognizes the fact that, to some extent, certain uses of the streets for private business purposes are in the interest of public convenience. But this paper would and does lay down the broad general principle, that the first and highest use of the streets is a public use, and that the public right in that respect is not duly respected and protected.

## AMERICANIZATION DAY

With the object in view of making immigrants and naturalized citizens feel at home, and for the purpose of fostering a spirit of patriotism and loyalty in the hearts of the new citizens and immigrants for the land of their adoption, a nation-wide movement has been inaugurated for the dedication of the coming Fourth of July as "Americanization Day."

Co-operating with the National Americanization Day Committee, the Commission of Immigration and Housing of California is arranging for the observance of "Americanization Day" on the Fourth of July in every town and city of California, and the Register indulges the hope that the heartiest co-operation will be given this movement throughout Orange County.

From the State Commission comes the suggestion that in each town and city in the state special provision be made in the Fourth of July program for participation by the new citizens and immigrants, to the end that they may be made to feel that they have a part in the celebration of American independence.

It is proposed by the Commission of Immigration and Housing that the Fourth of July committees in the various towns and cities of the state issue special invitations to the immigrants, particularly the naturalized citizens, to participate in the celebration of Independence Day, and that a one part of the program be arranged for

their special benefit. It is suggested that the program include speeches by leading citizens and some of the immigrants on the duties of America to the immigrant and the immigrant to America. It is also suggested that each immigrant naturalized during the past year be presented with a small American flag and also a seal button of the city with the word "Citizen" upon it, this presentation to be followed by the unfurling of the American flag, the singing of the "Star Spangled Banner," and the reciting of the "Pledge of Allegiance" by the new citizens assembled. These ceremonies are part of the Fourth of July celebration in Cleveland, Ohio, every year.

Acting upon the suggestion of the commission many towns and cities throughout the state are arranging for the observance of "Americanization Day" on the Fourth of July. Many communications to this effect have already been received by the commission, together with requests for further suggestions for the proper observance of the day. It is anticipated that most of the towns and cities in the states will co-operate in the movement. In Los Angeles four high school buildings are to be used for special immigrant meetings and celebrations on the Fourth of July. In San Francisco, it is hoped, will be held one of the largest and most important "Americanization Day" celebrations in the state.

The Commission of Immigration and Housing of California will gladly render any assistance possible in making the "Americanization Day" celebration a success in California. To this end those interested are invited to get in touch with the commission, which has its headquarters at 525 Market street, San Francisco.

## WHEN GREEK MEETS GREEK

But in This Case There'll Be No Tug of War.

Laguna Beach, June 23, 1915.

Editor Register: I saw your editorial, "The Wonderful Old Classics."

You said: "A business man finds no Greek in his newspaper." Of course he does not. But that is only because the language in question is Greek to the average business man—and to most other men, for that matter.

On the other hand, should Greek not be "all Greek" to the reader, said reader when seeing "telephone," for instance, mentioned in his newspaper, knows it to be a combination of two Greek words: tele—far; phone—sound.

Or "telescope," tele—far; scope, from the Greek verb scopos—to see.

"Telegraph"—tele—far; graph, from the Greek verb graphein—to write, etc.

I—a linguist—have my private opinion of the origin of languages.

Said opinion I am going to give to you in confidence.

From the shores of the Mediterranean an angel set out to distribute the different vehicles of thought among the then known nations.

It, he or she (the angel) dropped the Italian language on the country that lately got mixed up in the war. In short, every European nation, except England, got what was coming to it.

It appears that the angel, after flying all day, found itself late at night on Norwegian soil. But the task was not quite done. Upon consulting what was for that period a new map, it became evident that England had been overlooked. Only odds and ends of all the other languages, thoroughly mixed, remained in the angel's language receptacle. And that hash had to answer the purpose. It became English, you know. Thus it happens that any foreigner can readily pick up English, while an Englishman is ever ready to pick flaws in the foreigner's pronunciation.

But—you're right. Very few people find Greek in a newspaper, and very few people will find any interest in your editorial.

Let's hope you enjoyed writing it.

FRANK HANSON.

Mr. Hanson is, by his own confession or admission—"a linguist." Also by his own statement (in a former communication) he is a Dutchman. He is several other things. For instance, he is clever, he is scholarly, and—he is a little bit mean. An Englishman would say he is nasty.

Which recalls a linguistic tilt between an American girl and an Englishman. The girl seemed to like, and she often used the word nice.

"Don't say nice," said the Englishman; "nice is a nasty word."

To which the American girl retorted: "But do you think nasty is a nice word?"

Speaking of the "origin of languages"—and, by the way, Mr. Hanson's "private opinion" on that subject is neither as private nor as original as he seems to think it is—speaking of the origin of languages, there is a story as to the origin of the German language, and being German and not a linguist, the writer

can repeat it without being nasty. It is to this effect:

During the course of construction of the Tower of Babel, a workman in a high place dropped a trowelful of mortar. Another workman, below, caught the mortar in his mouth. The noise he made is the origin of the German language.

N. B.—German is not Dutch, so Hanson has no come-back.

## SURPRISE DINNER PARTY

### Dr. J. J. Jacobs "Victim" of Pleasant Affair Honoring His Birthday

Dr. J. J. Jacobs was the "victim" at a birthday surprise party last evening, which was such an enjoyable affair that he easily forgave the friends who played such a pleasant joke on him.

While on the way to his ranch, accompanied by a friend, Mr. George Platts, the latter, who professed to have forgotten his overcoat, insisted that they should return for it, on account of the coolness.

Arriving at the Platt home at 410 Garfield, the victim was enticed inside, where he was greeted by a chorus of friends and warmly welcomed by Mrs. H. F. Platt and Mrs. L. Baade, the hostesses of the evening.

These two ladies had prepared an appetizing birthday dinner at which nothing was lacking, not even the delicious white frosted cake which later made its appearance. The cake was trimmed with brightly gleaming candles, and although it took three breaths to blow out the twinkling ones, this was probably due to the fact that Dr. Jacobs was a trifle out of breath on account of this unexpected compliment.

Those who gathered round the table, prettily decorated with delicately tinted hydrangeas, were the guest of honor, Dr. Jacobs; his sisters, Miss Doris Jacobs and Mrs. Sandford Stein; Mr. and Mrs. Virgil Clem, Mr. and Mrs. L. Baade, Mr. and Mrs. H. F. Platt and Messrs. Merritt Stein, Harry Baade and George Platt.

Informality was the keynote of the pleasant after-dinner hours, during which all wished Dr. Jacobs many happy successive birthdays.

**Jolly Theater Party**  
Members of the Chit 'N' Sea Club enjoyed a merry theater party at Clune's last evening, with cooling refreshments later at Taylor's gold rooms.

Among the merry-makers were Misses Mildred Britton, Mable Brooks, Irene Edwards, Esther Flur, Alice Huntington, Lucy Stevens, Grace White, Edna Meyer, Fern Smith, Helene McNeill and her house guest, Miss Miller.

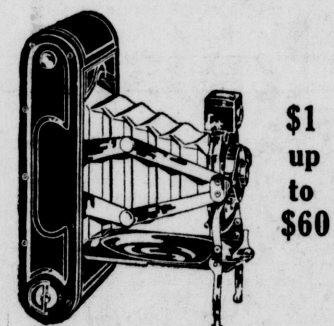

**Entertain Old Soldier Friend**  
Mr. and Mrs. J. H. Sturgeon of 337 Halesworth street, entertained an old soldier friend and his wife, Mr. and Mrs. C. Fay of 1117 West First street, yesterday.

The Fays were formerly of Bowling Green, Ohio, and Mr. Fay and his host were both members of the 144th Ohio Regiment.

The congenial company spent a delightful day in recalling to mind old acquaintances and Mrs. Fay also helped to pleasantly while away the hours with song and music.

The hostess served a splendid dinner at noon-time and the day passed as a happy event, long to be remembered.

## ANOTHER GOOD TIME

### N. M. U. Girls Enjoy Picnic Supper on Pleasant Back Lawn

When the members of the N. M. U. Club were invited to assemble at the home of Misses Gertrude and Frances Potts at 6 o'clock last evening, they knew that it meant another good time, but little anticipated the treat in store for them.

The Potts' have an ideal back yard with its shrubbery, flowers and grassy plat and beside the grape arbor, Indian blankets were laid, surrounding the snowy table cloth on which a sumptuous picnic supper was spread.

There was an immense pan of delicious home-baked beans, salads, jellies, olives, savory coffee, and an inexhaustible supply of piping hot biscuits, the glory of this latter treat belonging to Mrs. Potts, the charming little mother, of whom the girls are so fond.

With ice cream, crushed raspberries, fruit and cakes, the spread was complete and never did a supper taste so good.

Every member of the club was present with the exception of Miss Josephine McCrory, who will be keenly missed during the summer meetings and also Miss Ruth Larsen, of whom the girls think so often.

The evening was spent with needle-work indoors, the rooms being fragrant with bouquets of lovely pink roses and carnations.

Among those present were Mesdames Margaret Potts, E. A. Stockslager, Walter Eaton, Jack Palmer, Misses Jennie Dale, Adeline Hill, Alice Wasser, Joy Baker, Zoe Vanderlip, Hazel Stockslager, Marguerite Wallace, Mary Whipple, Zelma Sturgeon, Frances and Gertrude Potts and Samson. Miss Joy Baker will entertain the club at its next meeting.

## WED AT OAKLAND

### Former Santa Ana Man and Beautiful Bride Are Here On Honeymoon

Mr. and Mrs. Harry E. Patterson of Vallejo are spending their honeymoon in Southern California and at present are visiting at the home of Mr. Patterson's mother, Mrs. C. D. McAllister, of 408 Spurgeon street.

Mr. Patterson's bride was formerly Miss Edith Kent, a beautiful Berkeley girl, the happy pair having married at Oakland, June 20.

The bridegroom is well known in Santa Ana where he attended the local high school. He is now employed by the Southern Pacific Railroad Company at Vallejo, where the young couple will make their home after visiting two weeks in Santa Ana and attending the San Diego exposition.

Mr. Patterson has a host of Santa Ana friends who join in congratulating him and in wishing both a very happy future.

**Interesting Meeting**  
The Woman's Committee held an interesting meeting at the home of Mr. and Mrs. C. H. Wilson, 1129 West Chestnut avenue, yesterday afternoon. The meeting was opened with an inspiring poem entitled "Woman." The usual routine of business then followed, during which plans were laid for carrying on an educational campaign along sociological and biological lines, among women during the summer months.

Miss Marion Z. Israel of Los Angeles, state organizer and correspondent for the woman's committee, was present and gave a pleasing, instructive address which was greatly enjoyed by all present.

The next number on the program was a story entitled "Human Submarines in the Zone of the European War." Much merriment was occasioned by the reading of a satire entitled "To Our St. Anthony." The subject for discussion at the next meeting will be "The Cost of War."

This is a subject that should interest every mother and father in the world.

The annual election of officers was held, resulting as follows:

Organizer, Mrs. Minnie M. Wilson; secretary, Mrs. Annie McGaffey; treasurer, Mrs. May Hartley.

Several new members were admitted and both old and new members are looking forward to a pleasant and prosperous year.

**Remembered Her Birthday**  
Mr. and Mrs. Charles Bevis of South Sycamore street, entertained with a family dinner Tuesday, it being Miss Ruth's birthday.

Several friends called in the evening, bringing lovely birthday remembrances and wishing Miss Ruth many happy returns of her birthday.

## "All dressed up"

Isn't it a pleasant sensation? New clothes certainly make a fellow hold up his head and breathe freely. They give him a feeling of pride that nothing else does.

Nowadays there's little excuse for a man never looking well dressed. Scientific manufacture has reduced the cost of wearing apparel, bringing it within the reach of all.

One of the most rapid strides forward has been "Van-Son" clothes. Sixty-nine years of successful clothes making have resulted in stylish, serviceable, ready-to-wear clothes at \$10 to \$25. Each year brings improvement. This summer's suits are revelations.

An examination of our stock is the only just way to judge for yourself. Will you make it?

**Delightful Birthday Dinner**  
Mrs. C. M. Scott, who was formerly Miss Daisy C. Lewis, gave her husband a pleasant surprise last evening at their pretty home at 929 East Third street.

The affair was a delicious seven o'clock birthday dinner, served in three courses.

The guests included only the relatives of Mr. and Mrs. Scott and the honored gentleman was presented with many beautiful gifts.

Following the birthday feast, a social time was enjoyed by all.

## MAY BE THAT THE NOISE WAS MADE BY BIG MOUSE

Shush! And shush again! It was at the quiet hour of 1:30 o'clock this morning that the Home telephone bell rang at police headquarters.

It was the night operator at the Home office speaking. She said she had heard a noise in the back room of the Home offices. She thought some one was in there, robbing the place.

Officers Ryan and Smithwick went forth to capture a burglar. They walked on rubber heels up the stairway, quickly opened the door, and rushed in.

There was no burglar there. There was no noise to be heard except the breathing of two determined policemen.

# BUBONIC PLAGUE PRECAUTIONS ARE NEEDED IN U. S.

BY E. F. DORSEY  
(United Press Staff Correspondent)  
WASHINGTON, June 25.—W. C. Rucker, assistant bureau general, United States Public Health Service, sees need for greater precautions in this country against bubonic plague. Since the plague follows the path of steamship lines, he says, this country is threatened from every quarter of the world in which disease now exists. The ships carry rats and the rats carry the disease.

Rodent and human plague, he says, were found in the Hawaiian Islands no longer than last August. The whole Pacific coast is menaced by the existence of the disease in Ecuador and Peru, on the western coast of South America, a little over 4,000 miles from San Francisco. The en-

tire Gulf coast of our country is menaced by plague in Havana, 769 miles from Galveston, 601 miles from New Orleans, 324 miles from Tampa, and 92 miles from Key West. He says the disease was found among rats in New Orleans no longer ago than March 9, 1915. On account of the unsettled conditions now existing in Mexico, it is impossible to know whether or not plague exists in her Gulf ports.

"That the Atlantic coast of the United States is threatened with the importation of plague not only from the eastern coast of South America, but from European, African and Asiatic ports as well, is plain," said Dr. Rucker. "Less than 5,000 miles from New York, the plague is found in Brazil, at Pernambuco, Bahia, and Rio de Janeiro. In the Mediterranean littoral, plague is found in Tripoli, Greece, Egypt, and at Port Said, one of the greatest gateways of the world.

"Practically all of the ports of British India, with the exception of Calcutta, are infected with plague. Rangoon, Madras, Colombo, Bombay and Karachi report the presence of the disease, and from the latter point it has extended up into the Persian Gulf, Singapore, Surabaya, Mauritius, Zanzibar, Queenstown in South Africa, and Dakar in Senegal, all have plague. Directly or indirectly our country is in commercial communication with all of the infected places which have been mentioned, and it must be admitted that in view of the fact that plague is a disease of rodents which travel around the world in ships, the United States must consider itself as seriously menaced by bubonic plague.

## USING SOAP SPOILS THE HAIR

Soap should be used very sparingly, if at all, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulished coconut oil (which is pure and greaseless), is cheaper and better than soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulished coconut oil at any pharmacy, and a few ounces will supply every member of the family for months.

## INFORMATION ABOUT BONDS

From the Los Angeles Financial News.

**As to Irrigation Bonds**  
The irrigation districts of the State pay their taxes better than the municipalities, according to statistics which demonstrate that irrigation bonds should be as saleable and bring as good prices as municipal bonds. Although the tax levies in the four districts in Stanislaus county have run into the millions since the organization of 1914 districts, the delinquency amounts to but a few thousand dollars. The figures show that in the Oakdale district there have been tax levies of but \$587,970 since organized five years ago, and only \$749 of that amount is unpaid, or but thirteen hundredths of 1 per cent.

In the South San Joaquin district the total tax levies since organization, four years ago, aggregated \$183,369, of which all but \$394, or thirteen hundredths of 1 per cent has been collected.

In the Modesto district the total levy since organization in 1903, has been \$1,774,176, and the delinquency has been but \$515, of which all but \$82 has been paid, or five hundredths of 1 per cent.

In Tulare the total assessments have been \$2,824,143, since organization in 1888, and all but \$15,731, or fifty-five hundredths of 1 per cent, has been paid.

In Los Angeles levies of \$32,816,350 are shown with \$226,437, or sixty-seven hundredths of 1 per cent unpaid.

**Proposals for Bonds**  
Bids for the purchase of \$25,000 bonds of the Lowell School district will be received by Los Angeles county Board of Supervisors until 2 p. m. June 14. The bonds bear six per cent interest are in denominations of \$1000 each and will be sold serially one each year beginning June 1, 1916. Lowell Joint School district has been acting as a school district continuously since September 1907. The assessed value of taxable property in the school district for the year 1914 is \$1,386,106. Orange county \$223,000.00 and Los Angeles county \$462,160.00, and the amount of bonds previously issued and now outstanding is \$1125.00.

E. H. Rollins & Sons are offering Southern California Edison Company five-year 6 per cent convertible debentures, being part of \$5,000,000 recently authorized by the State Railroad Commission, of which \$325,000 are reserved to retire an equal amount of debentures due April 1, 1916, and \$2,668,000 are reserved for improvements.

**Bond Issues Sold**  
A committee headed by J. W. Barnberg of San Luis Obispo is drafting a bill for a bond issue of \$1,500,000, to be presented to the Supervisors at their meeting this month. This money is to be spent in building a network of good roads throughout the county.

Preliminary steps have been taken for the submission to the voters of Visalia of a proposal for the issue of \$35,000 bonds for the construction of a civic auditorium.

San Bernardino Chamber of Commerce has arranged a campaign for a bond issue for the construction of a city hall and convention hall.

Thermosa Beach by a vote of 159 to 72 gave a bond issue which will give the city \$200 a year for music, parking and advertising.

**Bond Election Called**

Voters of West Park school district will pass upon a proposition June 15 to issue \$12,000 bonds for making additions to school buildings, the bonds to be in denomination of \$1000 each, bear six per cent interest, payable annually and redeemable serially beginning two years after date.

## Seven States Bankers

(From L. A. Financial News.)

Bankers from the states, comprising this Federal Reserve District, the Twelfth, met in joint convention last week and four of the states held their State Conventions in San Francisco. It was the most representative body of financiers that has convened on the coast since the American Bankers Association held its convention in Los Angeles in 1910. San Francisco bankers were the hosts and the visitors were given a royal reception and a magnificent time.

At the joint convention the speakers were men well known in the financial world and the addresses were most interesting as they were most valuable. Among the resolutions adopted was one favoring the acquisition of an American Merchant Marine. This resolution after referring to the limited ability of this country to avail itself of the great markets of Central and South America urges every banker to educate his customers to the extent that when Congress again convenes public sentiment will be of such force and character as to cause our government to give all possible aid to the end that our merchant marine may be sufficiently large to carry our products to all markets available.

Another resolution condemned the laws of certain Eastern states which force their banks to discriminate against Western farm mortgages.

At the state conventions these officers of the Association were elected:

President, C. A. Smith, vice-president of the Security Bank, Oakland.  
Vice President, J. M. Henderson, Sacramento Bank, Sacramento.  
Treasurer, G. A. Kennedy, assistant cashier, First National Bank, San Francisco.

Secretary, Frederick H. Colburn, San Francisco.  
New members elected to the Executive Committee were W. D. Longyear, cashier Security Trust and Savings Bank, Los Angeles; J. B. McGargar, assistant cashier, Crocker National Bank, San Francisco; Fred E. Wadsworth, president Siskiyou County Bank, Yreka; F. W. Robinson, cashier, Producers' Savings Bank, Bakersfield.

Officers elected by the other state organizations follow:

For Nevada  
President, C. W. Poote, cashier of

ping a school house, the issue to bear a per cent interest and to run two to five years.

**Would Issue Gold Bonds**  
Application has been filed with the Railroad Commission by the Southern Pacific Company for authority to issue sufficient of its first mortgage gold bonds to net \$500,556.99. The proceeds from the sale of these bonds the company proposes to use for reimbursing its treasury for payments made for additions and betterments during the six months ending December 31, 1914. The company also asks authority to issue \$21,000 of its first refunding mortgage gold bonds on account of having discharged an equal amount of underlying bonds.

**Authorized by Railroad Commission**  
Permission for the Fresno Interurban Railway Company to issue 250 shares of stock at \$80 and \$700 bonds at \$90 has been made by the Railroad Commission. The issue is for purpose of continuing construction work.

**Bond Issues Authorized**  
Arizona State Corporation Commission has authorized the Southern Arizona Railroad Company to issue \$50,000 gold bonds the issue not to be sold under 90 and accrued interest.

By a vote of 116 for to 26 against Glendora has authorized its first mortgage bonds for acquisition of first mortgage bonds. Martinez by a vote of 129 to 5 has voted a bond issue of \$3000 for the purchase of a site for a school building.

**Miscellaneous Bond Information**  
Advices from Santa Fe are to the effect that there is every assurance that the \$500,000 issue of New Mexico highway bonds, authorized by the first state legislature, will be sold on June 12, at which time bids for the bonds will be opened. The law authorizing the bond issue, provided that the bonds should not be sold for less than par, and fixed the interest rate at 4 per cent. Due to these provisions, the bonds were not considered an attractive proposition, and previous attempts to sell them have failed. A plan to invest state school funds in the bonds, which was taken up last year, was resisted by State Treasurer O. N. Marron, and a test case was instituted in the supreme court, where it is still pending.

Oroquieta district, Fresno county, for the second time within two months defeated a proposition to issue 40,000 bonds for the erection of a new high school. This on the face of the returns, but on account of several ballots being thrown out on account of improper marking and a question raised as to the validity of registration in the country precincts a re-canvass of the returns was made which showed the defeat of the bonds by five votes.

Some time since Frank E. Hartigan endeavored to enjoy the City of Los Angeles from selling the \$5,000,000 power bonds which were approved by the people at a special election a year ago. This placed a legal cloud upon the issue and the question was carried up to the supreme court. The state and this tribunal on Wednesday rendered a decision which sustains the city and removes the cloud from the bonds.

A special election will be held in Los Angeles some time in August, as soon as possible after the law enacted by the last legislature, which permits the formation of bond districts within the city limits of municipalities becomes effective, for the purpose of issuing \$1,000,000 bonds for the purchase and improving of the Union Hollywood Water Company. The purchase price of the system is \$553,000.

The railroad commission has issued a supplemental order, extending the time within which the Pacific Electric Railway company may issue \$1,800,000 of its refunding mortgage fifty-year gold bonds from June 30, 1915, to and including January 1, 1916. These bonds are the unsold portion of the \$6,366,000 of bonds authorized by the commission November 23, 1914.

More than \$500,000, representing the proceeds from the sale of the second block of Kern county highway bonds, was carried from the First National Bank of Bakersfield this week and placed in the vaults of the treasurer of Kern county in the court house. Two hundred thousand dollars of the amount was in gold coin, weighing 750 pounds.

Bonds aggregating \$4,500,000 for municipal improvement were voted at a special election in Kansas City this week. Nine specific propositions were voted upon, including the establishment of traffic ways, improvement of parks, police and fire equipment and the municipal corrections system.

The trustees of Cache Creek School District, Yolo county, have called for a special election on June 11th, at which bonds will be voted on for the construction and furnishing of a new school. The proposed building and furnishings would cost in the neighborhood of \$3000.

The \$2000 bond issue of the Orange Alta School district, Fresno county, have been delivered to the William R. Staats Company who were the successful bidders.

## LOS ANGELES PRODUCE MARKET

The supply of melons continues large, and the inferior grades will first have to be cleared off the market before dealers can expect to receive high prices for their fancy stock. Apples came down yesterday to 55 and 65 cents a lug box. Peaches were easy, with the clingstone variety bringing \$1.25 a box, and freestone selling for \$1.35 a lug. Black figs declined to 75 and 85 cents a box, depending upon quality. Roman Beauty apples disappeared from the market, and black cherries brought the substantial figure of 11 and 12½ cents a pound. An oversupply of red currants this year has caused a top-heavy market, and the canners are taking no more orders at present. The new crop of extracted honey is now in the market, and comb honey may be expected in another month. The stock of old crop honey on hand is still very plentiful, and as a result prices may confidently be expected to remain at a low level. Raisins are not selling, and it will be another month before buying for the fall trade will commence.

Mrs. C. E. Lee was today called secretly before the grand jury and supposedly told about British representatives hiring her rooming house as a recruits' barracks.

## AT THE COURTHOUSE

# IN SAN QUENTIN THREE YEARS. SENTENCE

## Deserter From Navy Thinks Prison Be More Desirable Than Shipboard

When Fred Austin was arrested at Corona on a charge of embezzling a horse and buggy rented by him from Theo Lacy of Santa Ana, he declared he would rather be sent to the penitentiary than be made to go back to the navy, from which he says he deserted. He is not going to be sent back to the navy. This morning Judge West sentenced him to San Quentin for three years.

Austin is proud of his achievements in the brief period of time he was free. He left San Diego, and within a week was in jail. During that week he went from town to town pretending to be in search of a deserter from the navy. In that way he secured courtesies from officers. At Oceanside he gave two fake orders on the naval office in San Diego.

"What were you going to do with this rig that you rented here?" asked Judge West.

"I was going to keep it, sir."

"Were you really looking for a deserter?"

No, sir.

Austin gave his age as 24. He said he served eight years in the navy, lacking a month, and had only one month more to serve when he deserted. His parents live in Chicago.

## IN THE JUSTICE COURT JUSTICE COX COULD NOT BLUFF GIRL WHO IS DEPUTY SHERIFF

Under Sheriff Brings In Two Men Concerned In Bad Check Case

It is up to Justice Cox to buy a box of candy for Deputy Sheriff Davis.

A good many deputies might prefer a box of cigars, but it so happens that Deputy Davis does not smoke. Unofficially Deputy Sheriff Davis' name is Miss Opal Davis of Orange.

Yesterday Harvey Brooks was due to be brought into court on a minor misdemeanor charge. At the time Miss Davis, who is office deputy in Sheriff Jackson's department, was at the jail. Justice Cox conceived the idea of having Miss Davis bring the man into court. He telephoned to the jail, and asked Miss Davis to perform the duty.

If Justice Cox was offering a bluff, it was called. Miss Davis walked into court with Brooks, who is a head and a half taller than the deputy and weighs twice as much.

The charge against Brooks was quickly disposed of. He was accused of having failed to pay a board bill to Lucy Vanhoy. He arranged to pay \$15 a month on the bill, and the case was dropped. Brooks was arrested by Constables Heard and Coleman.

**Bad Check Doubles**  
Ordinarily when there is a bad check, the officers look for one man only. In a bad check case that came up over at Los Alamitos the officers looked for two men. This morning Under Sheriff man got them both and put them in jail. They are E. J. Cervantes and T. Montes. As the story has been told to the sheriff's office, Cervantes drew a \$10 check on a Long Beach bank and gave it to Montes, a relative of Cervantes. Montes cashed it at a blacksmith shop at Los Alamitos. The check came back from the bank. Cervantes is farming beats west of Westminster.

## FRATERNITY PROVES AID TO SCHOLARSHIP, SAY BERKELEY MEN

BERKELEY, June 25.—Fraternity men rank higher in scholarship than non-fraternity men, according to announcement by University of California faculty members.

Figures given out after an examination of all grades of all members of thirty-two men's fraternities at the university showed an average percentage grade of 2.325. Members of men's house clubs showed an average grade of 2.255 and students who are members of neither fraternities or house clubs averaged 2.354. The averages are based on the proposition that 1 is perfect, so the smaller the figure the better the grade.

The figures are for the first half of the year 1915, which ended May 1.

## ODDITIES OF WAR

LONDON.—Huge recruiting office posters throughout England now bear the words "Remember the Lusitania" over a lithographic picture of the leviathan.

NORTHERN FRANCE.—Jack Johnson's notoriety has gone from the trenches. Big German shells that screech overhead and burst with a roar, are now called "Jess Willards."

MILAN.—A leading newspaper figures the total of prisoners and guns claimed to have been captured by the Austrians since the war started, at 13,000,000 men and 8600 guns.

SALFORD, Eng.—Three hundred women here are anxious to serve as street car conductors and "motormen" to relieve men of military age.

LONDON.—Agitation is great to have the Kaiser's model placed in the "Chamber of Horrors" of a noted war works exhibition here.

LIVERPOOL, June 19.—Expensive cut flowers were sent by the Cunard company on a government steamer to the scene of the Lusitania disaster and were scattered over the watery graves of the victims.

## WOMAN MANAGER AND BOSS OF HAY BALER

Mrs. R. S. Jacober of Newhope Handles Details of Business and Cooks

\* Mrs. R. S. Jacober of Newhope is managing a hay baler, and what is more she knows the business and is making good at it.  
\* Last year when the work was in charge of a foreman she spent two weeks at work on the baler. She poked wires and tied them just as well as anyone ever on the job.  
\* This year the baler over which Mrs. Jacober has direct oversight has no foreman. She is foreman as well as manager and cook. Her husband is foreman of another baler at work elsewhere. During the last week Mrs. Jacober's baler was at work on the Salvage ranch.  
\* Mrs. Jacober takes contracts to do baling by the ton. Just at present she is at work on barley hay. Later she will bale bean straw and alfalfa.  
\* There are six men at work in the outfit of which Mrs. Jacober is boss. She not only tells the men what they shall do, but she also tells them what they shall eat. At least, she buys all the supplies and does all the cooking not only for the six men but also for her family. As yet Mrs. Jacober is not a driver of an automobile. Every day and sometimes twice a day she drives into Santa Ana for supplies.

## ORANGE COUNTY VALENCIA ORANGES ARE BRINGING LOTS OF MONEY THIS YEAR TO OWNERS OF GROVES

In the Valencia belt of Orange county, packing houses are busy preparing Valencia oranges for shipment. For over a month Valencias have been going to eastern markets, and from the first there has been a gradual upward movement in prices. Tustin, El Modena, Orange, McPherson, Villa Park, Olive, Anaheim, Placentia, Yorba Linda, Fullerton and La Habra are all shipping Valencias.

There is every reason to believe that the market is going to remain good and get better. The shipping season will not be finished until October.

Orange county oranges are bringing top notch prices in the New York and other eastern markets.

The golden harvest is on. Orange county growers of Valencias are reaping it.

The picture shown herewith is a scene in an orange packing house at Placentia.

## HUNTINGTON BEACH'S SPLENDID NEW GRAMMAR SCHOOL BUILDING TO BE FINISHED BY SEPTEMBER

Huntington Beach, overlooking the sea on one side and the richest of lowlands valleys on the other, is to have a fine new grammar school ready for occupancy with the opening of school in September. The breaking of ground occurred last week.

The fine new structure will be built by Harvey Garber, an Orange contractor.

The building will cost approximately \$54,000 when completed, which will be about September 1. It was planned by Architect John C. Smith of Los Angeles.

Of an extreme classic type, the school is designed along the lines of the early Colonial period of England. It is arranged in the form of the letter E, the two wings, one story high, and the central portion, two stories. On the first floor are ten school rooms, besides an expansive auditorium.

The central portion of the building contains, besides the auditorium, the principal's office, library, teachers' room and rest room. The auditorium will seat 700 people and will be equipped with a roomy stage with wide proscenium suitable for entertainments, or civic meetings and equipped with apparatus for moving picture displays.

The auditorium is to be well lighted by ample windows at each side for daylight assemblies and will be fitted up with the latest form of indirect electrical illumination for evening gatherings.

Wide corridors run past the first floor class rooms and open out into

large court yards through wide, double exit doors. The rooms are arranged five in each wing. Boys' and girls' lavatories, fitted up with the latest improved type of sanitary plumbing fixtures and accession are situated at the ends of the corridors in opposite wings of the building.

In these wings are placed the boys' and girls' apartments, arranged on the ground floor by taking advantage of the natural fall of the ground at each end of the building. In the boys' wing are the play room, bicycle room, manual training room, varnishing room and lumber room. The girls' wing contains domestic science room, sewing room, bicycle room and play room.

In the basement, beneath a portion of the central part of the building, will be a modern heating and ventilating plant with fan system. All of the class rooms are well lighted with two triple windows, or six to each room. The main entrance in the center of the building, faces southwest. Approach is made through a high, wide portico in which are placed two artificial stone columns, 3 feet in diameter and 27 feet high; each with ionic carved caps and inverted bases.

Entering the building from the portico through two wide doors, one finds the library and principal's office to the right and left with the entrance to the auditorium directly in front.

Boys' and girls' entrances on the east and west sides of the building are arranged through wide doorways, and up wide stairways of easy ascent to the first floor or down flights of five steps with runway for bicycles to the basement, containing the several rooms of the boys' and girls' departments.

The building will be faced with sand lime pressed brick on the exterior with artificial stone trimmings at the entrances.

The total length of the front of the building will be 255 feet, the length of the frontage on east and west elevations will be 140 feet and the total depth through the center, including the auditorium, will be about 150 feet. Mr. Garber secured the contract in competition with 16 other bidders.

## HOTEL HAYNES TRADED FOR HOME PROPERTY

Orange News: W. D. Grafton and A. K. Grafton became owners of the Hotel Haynes on West Chapman avenue through a deal just completed by Phillips & Edwards, real estate agents, in which the hotel property is exchanged by Herbert Farrar to the Grafton brothers for residence property on North Shaffer street. The property is valued at \$11,000.

The new owners of the hotel are well known here, having other property interests in this locality. They are also connected with the Grafton Publishing Company of Los Angeles. The Farrar family, it is understood, will continue to make their home in Orange.

**NEW BLOCK PROGRESSING**  
Garden Grove News: The new Lew block is approaching completion. With its sixty feet on Euclid avenue and fifty feet on Ocean avenue it sets the corner off to a great advantage and makes the center of town very attractive. A cement sidewalk will be laid around the building and as far out as the building limits.

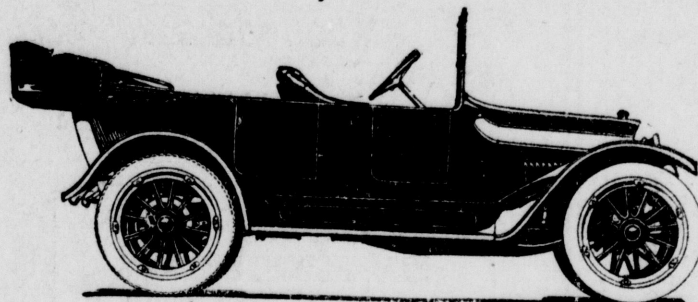

## YUNGBLUTH BUILDING TO BE A CREDIT TO ANAHEIM

Anaheim Gazette: The Yungbluth building on West Center street when completed will be one of the most substantial structures in town. Work is progressing satisfactorily and a large force of mechanics is employed with a view of completing the structure as soon as possible. The large lower floor will be occupied by Mr. Yungbluth's gents' furnishing and tailoring departments and will be one of the best appointed stores in the valley. The second floor will contain nine apartment suites, the arrangement of which for comfort and convenience is not equalled in any building in the county. A central stairway leads into a capacious hall to be used as a parlor for the accommodation of tenants. Two and three-room apartments comprise the remainder of the upper floor, containing all modern improvements and accessories. The basement extends the length of the building a distance of 130 feet and will afford an ideal location for a business venture, the nature of which has not as yet been decided upon. Mr. Yungbluth has great faith in the future of Anaheim and is to be given praise for erecting such an imposing structure, which adds materially to the architectural beauty of the downtown district. The Yungbluth building together with the fine Fisher and Odd Fellows' buildings form a nucleus around which others will grow. It is only a question of time when property owners in the block will begin active operations to adorn their holdings with structures in keeping with these now nearing completion.

## WELL IS NOW FLOWING 800 BARRELS OF EXCELLENT OIL

Brea Progress: Coyote well 2-4 of the Standard Oil Company which we reported in last week and prophesied an exceptionally good producer, is now flowing 800 barrels of 21½ gravity oil daily and promises to be one of the real big producers of the entire Brea field. The bringing in of this excellent well will result in immediate increased activities in that locality and if the oil market was anywhere near the normal point the work of development would go to the extreme limit. But that things are getting quite busy in that section of the field is clearly evident. The Standard is now rigging up for well No. 6. The Union has just put another well on the drill and is staking off the location for still another. The Amalgamated is also opening up for increased operations. The Union has started Naroal well No. 5, to offset the West Coast producer just across the line.

The Columbia is rigging up for a new well in the Olinda field. A noiseless rotary drill, the latest and probably the greatest novelty in oil machinery, is now operating in the Brea field. The new drill is at work at well No. 2 on the St. Helens lease. The mechanism was devised by Mr. Roscoe Stevens, general manager of the St. Helens Company, and the machine was produced by the Union Tool Company. While there will probably be some minor changes in the construction, it is fully believed that the new drill will ultimately prove the best of anything yet made in this line, and if Mr. Stevens is successful in taking the noise out of a rotary drill and retaining or improving the efficiency, then a suffering world will implore Mr. Stevens to get busy at once on the motorcycle.

The members of the club came dressed as school children all the way from the age of kindergartners to that of high school girls.

### Did Not Know He Had Kidney Trouble

"Until I applied for life insurance," writes Andrew O'Donnell, Birmingham, Ala., "I did not know that I had kidney trouble, but four physicians who examined me for the company said I had, and each turned me down on account of this insidious trouble. Later I was seriously disabled and used Foley Kidney Pills, and used them persistently, until now one of the same physicians says I'm all right and he will O. K. my application. I have caused many of my friends to buy Foley Kidney Pills."

Overworked kidneys may become inflamed and seriously diseased while the sufferer ignores the warnings. Backache, rheumatism, uric acid in the blood, discolored urine, stiff joints, sore muscles, puffiness under eyes—any and all of these conditions deserve instant attention. Foley Kidney Pills help the kidneys to do their work, soothe and heal irritations and help throw out poisonous waste matter from the system.

## THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not speak, nor sleep to do any good, had no appetite and everyone thought I would not live."

Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.

"I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."—Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
